<sup>(1)</sup>U.S. tax reform legislation resulted in a net favorable provisional adjustment due to the reduction of certain deferred tax liabilities which were partially offset by provisional tax charges related to the toll tax provision of U.S. tax reform. The amount recognized is a provisional estimate and subject to change, possibly materially, due to, among other things, refinements of the Company's calculations, changes in interpretations and assumptions the Company has made or additional guidance issued by the U.S. Treasury, Securities and Exchange Commission or Financial Accounting Standards Board.

#### **Guidance**

#### **Website Information**

We routinely post important information for investors on our website, www.zimmerbiomet.com, in the "Investor Relations" section. We use this website as a means of disclosing material, non-public information and for complying with our disclosure obligations under Regulation FD. Accordingly, investors should monitor the Investor Relations section of our website, in addition to following our press releases, SEC filings, public conference calls, presentations and webcasts. #### **Note on Non-GAAP Financial Measures**

This press release includes non-GAAP financial measures that differ from financial measures calculated in accordance with U.S. generally accepted accounting principles ("GAAP"). These non-GAAP financial measures may not be comparable to similar measures reported by other companies and should be considered in addition to, and not as a substitute for, or superior to, other measures prepared in accordance with GAAP.

Sales change information for the three-month period and the year ended December 31, 2017 is presented on a GAAP (reported) basis and on a constant currency basis. The sales change information for the full year is also presented on a constant currency basis that excludes the contribution from the Company's acquisition of LDR Holding Corporation in July 2016. Projected revenue change information is also presented on a GAAP basis and on a constant currency basis. Constant currency rates exclude the effects of foreign currency exchange rates. They are calculated by translating current and priorperiod sales at the same predetermined exchange rate. The translated results are then used to determine year-over-year percentage increases or decreases.

Net earnings, diluted earnings per share and projected diluted earnings per share are presented on a GAAP (reported) basis and on an adjusted basis. Adjusted earnings and adjusted diluted earnings per share exclude the effects of inventory step-up; certain inventory and manufacturing-related charges connected to discontinuing certain product lines, quality enhancement and remediation efforts; special items; intangible asset amortization; certain claims; goodwill impairment; debt extinguishment charges; any related effects on our income tax provision associated with these items; the effect of U.S. tax reform; and other certain tax adjustments. Special items include expenses resulting directly from our business combinations and/or global restructuring, quality and operational excellence initiatives, including employee termination benefits, certain contract terminations, consulting and professional fees, dedicated project personnel, asset impairment or loss on disposal charges, certain litigation matters, costs of complying with our deferred prosecution agreement and other items. Other certain tax adjustments include a tax restructuring that lowered the tax rate on deferred tax liabilities

recorded on intangible assets recognized in acquisition-related accounting, net favorable resolutions of various tax matters, a favorable tax rate change in a foreign jurisdiction and charges from internal restructuring transactions that provide the Company access to cash in a tax efficient manner.

Management uses these non-GAAP financial measures internally to evaluate the performance of the business and believes they are useful measures that provide meaningful supplemental information to investors to consider when evaluating the performance of the Company. Management believes these measures offer the ability to make period-to-period comparisons that are not impacted by certain items that can cause dramatic changes in reported operating results, to perform trend analysis, to better identify operating trends that may otherwise be masked or distorted by these types of items and to provide additional transparency of certain items. In addition, certain of these non-GAAP financial measures are used as performance metrics in the Company's incentive compensation programs.

Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures are included in this press release.

- (2)The Company recognized a \$272.0 million non-cash goodwill impairment charge in the fourth quarter of 2018 related to its Spine less Asia Pacific reporting unit during its annual goodwill impairment testing. The impairment was driven by integration issues between the legacy Zimmer, Biomet and LDR businesses.
