### Guidance

The Company updated its full-year 2015 reported sales and adjusted earnings per share guidance, and reaffirmed constant currency sales growth for 2015 for the combined entity. Full-year 2015 constant currency revenue, compared to pro forma 2014 revenue, is still expected to increase between 1.5% and 2.0%. The pro forma adjustments to the prior year reflect the inclusion of Biomet revenue for the comparable post-merger closing period in the prior year and the impact of the previously announced divestiture remedies. The Company expects foreign currency translation to decrease revenues approximately 6.0% for the full year, resulting in reported revenue decreasing between 4.0% and 4.5% when compared to pro forma 2014 revenue.

The Company now expects full-year 2015 diluted earnings per share to be in a range of \$6.65 to \$6.80 on an adjusted basis. Previously, the Company estimated fully diluted adjusted earnings per share to be in a range of \$6.60 to \$6.80. The Company also continues to project \$350 million in pre-tax, net synergies by the end of the third year following the merger closing. Additionally, within the first twelve months post-closing, the Company continues to expect to realize earnings per share accretion in a range of \$0.95 to \$1.05 relating to the Biomet merger, with \$135 million of pre-tax, net synergy savings.
