

# Zimmer Enters into Pain Management Agreement

Dec 02, 2004

WARSAW, Ind., Dec 2, 2004 /PRNewswire-FirstCall via COMTEX/ -- Zimmer Holdings, Inc. (NYSE: ZMH; SWX: ZMH), a worldwide leader in the orthopaedics industry, announced today it has entered into a distribution agreement with Baxter Healthcare Corporation that will allow Zimmer to market Baxter's Infusor as part of a pain management kit for orthopaedic and other non-oncology surgical procedures in the United States.

"This is another demonstration of Zimmer's determination to be a provider of solutions for orthopaedic surgery that improve the patient's overall experience," said Ray Elliott, Zimmer Chairman, President and Chief Executive Officer. "Many surgeons believe the patient is able to rehabilitate faster if pain management begins at the surgical site, and we are pleased to work with Baxter to offer a system that helps them accomplish this goal."

The Infusor is a portable, disposable elastomeric infusion device designed to provide a slow, continuous administration of medication given as a result of a surgical procedure. The system then can stay with the patient during recovery and rehabilitation. The device's benefits, therefore, fit well with Zimmer's objectives to help orthopaedic surgical patients reduce the length of their hospital stay and speed their rehabilitation. This is especially true when coordinated with Zimmer Minimally Invasive Solutions(TM) (MIS(TM)) Procedures and Technologies. Zimmer expects to begin selling the system in the first quarter of 2005.
