## **ZIMMER BIOMET INC. LOGO**

Zimmer Biomet Holdings, Inc. ( NYSE and SIX: ZBH) today reported financial results for the quarter ended September 30, 2015. The Company reported third quarter net sales of \$1.76 billion, an increase of 59.3% as reported. The increase in the quarter was 0.7% on an adjusted pro forma, constant currency basis over the same prior year period. Reported diluted earnings per share for the quarter were \$0.11 and adjusted earnings per share were \$1.64, an increase of 13.1% over the prior year period.

"We are pleased with the achievements of our global teams during Zimmer Biomet's first quarter as a combined company," said David Dvorak, President and CEO of Zimmer Biomet . "In an operating period marked by significant progress in the execution of our sales channel integration, we generated sequential top-line improvement and strong earnings growth. As we exit this year and progress

through 2016, we are well positioned to continue improving revenue growth and delivering on our synergy commitments."

Net earnings for the third quarter were \$22.2 million on a reported basis and \$338.4 million on an adjusted basis, an increase of 35.5% adjusted over the prior year period. Operating cash flow for the third quarter was \$151.3 million.

During the quarter, the Company paid \$37.6 million in dividends, or \$0.22 per share.

Additionally, the Company is reinstating its share repurchase program. The existing program was temporarily suspended in April 2014 in anticipation of the Biomet transaction. Currently, \$599.5 million of share repurchase authorization remains available under this program.

#### **Guidance**

The Company updated its full-year 2015 sales and adjusted earnings per share guidance. Full-year 2015 constant currency revenue, relative to comparable adjusted pro forma 2014 revenue, is now expected to increase between 1.0% and 1.5%. Previously, the Company had expected full-year constant currency revenue to increase between 1.5% and 2.0%. The Company expects foreign currency translation to decrease revenues by approximately 5.75% for the full year, resulting in reported revenue decreasing between 4.25% and 4.75% when compared to adjusted pro forma 2014 revenue for the comparable period.

The Company now expects full-year 2015 adjusted earnings per share to be in a range of \$6.83 to \$6.87. Previously, the Company estimated full-year 2015 adjusted earnings per share to be in a range of \$6.65 to \$6.80.

Zimmer Biomet's increased earnings per share guidance is due, in part, to the Company's outperformance in the third quarter in capturing operating synergies associated with the merger. The Company now forecasts net synergies of \$155.0 million within the first 12 months post-closing, a \$20.0 million increase over the previous guidance.

#### **Updated Quarter Closing Convention**

Beginning with the three months ended March 31, 2015, we have changed our quarter-end closing convention for the majority of our international reporting units. As a consequence, our results of operations for the nine months ended September 30, 2015 include up to three more billing days for such international reporting units than were included in our results of operations for the nine months ended September 30, 2014. We have not restated the presentation of our 2014 financial statements to conform to this change of closing convention because the impact of the change is not material to the results of operations or to the comparisons between the 2015 and 2014 periods.
