Zimmer Biomet Named Top Workplace on Forbes' "America's Best Large Employers of 2017" List

May 09, 2017

WARSAW, Ind., May 9, 2017 /PRNewswire/ -- Zimmer Biomet Holdings, Inc. (NYSE and SIX: ZBH), a global leader in musculoskeletal healthcare, today announced it has earned a spot on *Forbes'* "America's Best Large Employers of 2017" list. The Company was ranked among 500 U.S. employers as well as in the categories of Large Employers and Healthcare Equipment and Services.

The annual *Forbes* rankings honor U.S. employers based on an anonymous, independent survey of over 30,000 employees across 25 industries. The survey asks how likely employees would be to recommend their employer to someone else as well as asks them to rate other industry employers.

"We are honored to be a part of *Forbes'* list of America's best employers," said Bill Fisher, Zimmer Biomet's Senior Vice President, Global Human Resources. "Our team members are the foundation of Zimmer Biomet. Our Company's purpose is to restore mobility, alleviate pain and improve the quality of life for patients around the world, and we accomplish this important goal through the expertise and dedication of our team members. We are committed to the growth and professional development of our team members and we provide an environment that empowers individuals to take charge of their careers."

The 500 employers featured on the list were chosen based on the results of an independent survey from an online statistics provider called Statista. The survey was conducted among a sample of 30,000 American employees working at large companies with headcounts of 1,000 or more. The employees were contacted anonymously online without the involvement of their employers, and they were unaware the survey was for *Forbes*.

About Zimmer Biomet

Founded in 1927 and headquartered in Warsaw, Indiana, Zimmer Biomet is a global leader in musculoskeletal healthcare. We design, manufacture and market orthopaedic reconstructive products; sports medicine, biologics, extremities and trauma products; office based technologies; spine, craniomaxillofacial and thoracic products; dental implants; and related surgical products.

We collaborate with healthcare professionals around the globe to advance the pace of innovation. Our products and solutions help treat patients suffering from disorders of, or injuries to, bones, joints or supporting soft tissues. Together with healthcare professionals, we help millions of people live better lives.

We have operations in more than 25 countries around the world and sell products in more than 100 countries. For more information, visit www.zimmerbiomet.com or follow Zimmer Biomet on Twitter at www.twitter.com/zimmerbiomet.
