Zimmer Biomet to Showcase Foot and Ankle Portfolio at the American Orthopedic Foot and Ankle Society Annual Conference

Sep 04, 2025

WARSAW, Ind., Sept. 4, 2025 /PRNewswire/ -- Zimmer Biomet Holdings, Inc. (NYSE and SIX: ZBH), a global medical technology leader, today announced its participation in the American Orthopedic Foot and Ankle Society Annual Conference in Savannah, Ga. From September 10-13, 2025, Zimmer Biomet's wholly owned subsidiary, Paragon 28, will feature a suite of industry-leading foot and ankle products.

"We are excited to engage with foot and ankle specialists at AOFAS and highlight our latest innovations in what's been a remarkably strong cadence of product launches over the past two years," said Albert DaCosta, Global President, Foot and Ankle, Zimmer Biomet. "Our continued progress is a direct reflection of our purpose to improve outcomes and experiences for patients suffering from foot and ankle conditions."

Zimmer Biomet will showcase its latest advancements in Booth #421, where attendees can experience how Zimmer Biomet's Paragon 28 portfolio is shaping the future of foot and ankle surgery. Featured technologies include:

- **SMART 28℠ Case Management Portal featuring SMART Bun-Yo-Matic℠**
  - Digital case management platform designed to streamline surgical planning and execution, integrating AI, data analytics, and 3D modeling.
  - Provides an intuitive interface for case scheduling, direct communication with engineers, and conversion of surgical plans into patient-specific guides.
- **APEX 3D S™ Stemmed Tibial Implant and Right-Angle Drill**
  - Expands the APEX 3D Total Ankle Replacement portfolio with a stemmed tibia implant. The 12mm stem and the smooth 9mm proximal were designed to address stress shielding; the

3mm distal features a lattice structure for immediate fixation at time of implantation.
    - Instrumentation including a Right-Angle Drill and Linear Guide for precision tibia preparation for final implantation of APEX 3D S Stemmed Tibia Implant.
- **Phantom® Fibula Nail System**
    - Minimally invasive implant designed to help minimize soft tissue complications while providing fibula fracture stabilization.
    - Features a proximal locking mechanism and syndesmotic fixation options.
- **R3FLEX™ Stabilization System**
    - Next-generation syndesmotic repair solution that allows surgeons to dynamically adjust and visualize tension during fixation.
- **Gorilla® Pilon Fusion Plating System**
    - Low-profile, anatomic dual-plating system with robust instrumentation designed for primary tibiotalar fusion in patients with unreconstructable pilon fractures.
- **FJ2000™ Power Console and Burr System**
    - Sterile-packed, single-use power system designed for a wide range of foot and ankle procedures.
- **PRECISION® MIS Bunion System**
    - Offers a minimally invasive solution for triplanar correction of bunions, for surgical precision and patient recovery.

In addition to showcasing these innovations, the team will host several exclusive events at AOFAS:

- **New Product Introduction One-on-One Sessions** – Experience hands-on training with the latest Zimmer Biomet Paragon 28 portfolio technologies in a cadaver setting within the convention center. [Link to Registration Page]
- **SMART.STEALTH.SURGICAL – Innovations in Foot and Ankle Dinner** – Join Zimmer Biomet's Paragon 28 team for an evening of discussion on the latest advancements in foot and ankle surgery, featuring industry-leading surgeons and Zimmer Biomet's foot and ankle specialist. [Link to Registration Page]
- **Better Together: Toasting the Future of Foot & Ankle** – Join Zimmer Biomet leaders on Thursday, September 11, from 4:30 to 6:00 p.m. at Booth 421 to learn more about how Zimmer Biomet's Paragon 28 is reshaping the future of foot and ankle surgery.
